7. The following are the criteria by which the Planning Board approves any Site Plan Review:

A) Does the use comply with all other requirements of the zoning ordinance, including the dimensional regulation of the zoning district in which it is proposed to be located?

See Exhibit M, to our knowledge the Project complies with the Town Zoning Code, except for the required 500' setback.

B) Is the use in harmony with the general purpose and intent of the zoning ordinance, specifically taking into account the location, character, and size of the proposed use and the description and purpose of the district in which such use is proposed, the nature and intensity of the activities to be involved in or conducted in connection with the proposed use, and the nature and rate of any increase on the burden of supporting public services and facilities which will follow the approval of the proposed use?

See Exhibit K and Exhibit M; the Project will not adversely impact the neighborhood.

C) Would the establishment, maintenance or operation of the proposed use create public hazards from traffic, traffic congestion, or the parking of automobiles or be otherwise detrimental to the health, safety or general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to the property and improvements in the neighborhood or the general welfare of the Town?

See Exhibit K and Exhibit M; the Project will not adversely impact the neighborhood.

D) Would the project have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreation or open space to provide supporting facilities and services made necessary by the project — taking into account the commercial, industrial, education, residential, recreational or other benefits that might be derived from the project?

See Exhibit K and Exhibit M; the Project will not adversely impact the neighborhood.

- E) Would the project adversely impact the public health, safety and general welfare as well as the comfort and convenience of the public in general and residents of the immediate neighborhood?  
The Project will enhance public health and safety in the area by providing reliable wireless telecommunications to the area.
